

Tower Light Service Programs

If you're like many of our clients, you don't want to think about tower lighting. You want it to be in compliance and to work. Enter VIP and TLC. These new obstruction light maintenance programs will save you time and stress, allowing you to "set it and forget it" for years. *

Vanguard Inclusive Program (VIP)

VIP services are available to new and existing Vanguard lighting systems.

- Capital expense model — no operating expenses
- Predictable budgeting — one-time flat rate fee
- For new and existing Vanguard lighting systems
- Flash automatically dispatches and repairs

New Vanguard systems:

- 5-year parts and labor warranty

Existing Vanguard systems:

- Labor for the remainder of the parts warranty
- Applies to Vanguard systems after 90 days from shipment

Tower Lighting Compliance (TLC)

Our new TLC service program is available to all other obstruction lighting systems, including systems from other manufacturers.

- Flat rate labor fee
- Flash automatically dispatches and repairs
- Punch-down package provided for each repair

Learn More

Since 2011, Flash Technology has successfully delivered almost 19,000 service projects, including lighting system and monitoring equipment installations, system repairs and site audits.

Call us or email flashsales@spx.com to learn more about these new additions our service offerings.
